

iEQ45 Pro and accessories - \$950

Gently used iEQ45 Pro GOTO German Equatorial Mount (GEM). Great for you 8" or smaller telescope. Used this for my SCT 8" and deep-sky photography. Recently upgraded to a 11" SCT, and as a result had to upgrade to a mount that could handle the extra weight.

Selling for about ½ of list price \$950 pick-up only(Chandler).
